

MAGNETIC FENCES

The grid is made up of magnetic and non-magnetic plates. Each magnetic plate has two halves: one positive and one negative. Halves with the same symbol cannot touch each other horizontally or vertically. The numbers to the right of the grid and below it indicate the number of magnetic halves in that particular row or column.

Also draw a single continuous loop in the grid, following the edges of the diagram. The loop touches each positive half-plate on an even number of sides, and each negative half-plate on an odd number of sides.

SOLUTION

+	-	+	-	+			+	-	+	-	+	6	4
-	+	-	+	-			+			-		3	5
							-	+	-	+		2	2
	+		+	-			-	+			+	4	2
	-	+	-	+					-		-	3	4
	+	-	+	-					+	-	+	4	4
	-						-	+	-	+		3	3
	+	-	+	-			-	+	-		-	3	5
	-	+	-	+			-	+			+	5	3
-	+	-	+	-	+	-				-		3	6
+	-					+			+	-	+	4	2
-	+									+	-	2	2
